

December 28th

SPAIN

Fools

All Fool's day (28th December) is the celebration of little lies or practical jokes (inocentadas- from innocent people) among different people (our friends, neighbours...).

When we were younger, we told one of our friends to go and bring something and he arrived at the place and could not find anything as nothing was there.

On this day, a false piece of news usually appears on the newspapers as a kind of joke.
